11/5, 1st Lane, Lakshapathiya,
Moratuwa

Educational Qualifications

2022

Ordinary Level Cambridge

Lyceum International School
Panadura

Obtained 5As and 2Bs

Biology - A

English Language - A

English Literature - A

Physics - A

Mathematics - A

Computer Science - B

Chemistry - B

2024

Foundation Certificate in Higher Education

Informatics Institute of Technology

Skills

- Programming: Java, Python, JavaScript
- Web Development: HTML, CSS, Django
- Databases: SQL(MYSQL, POSTGRE SQL)
- Other Technologies: GitHub
- Core Skills: Problem Solving, Requirements Analysis, Project Planning

Personal Profile

- Software Engineering undergraduate at IIT with strong interest in development
- Experienced in web technologies and building practical applications
- Worked on real-world projects including an AI-based study platform
- Strong problem-solving and analytical thinking skills
- Motivated to contribute to development teams and expand technical expertise

Projects

StudyMaxx - AI Study Companion

- Designed and developed responsive user interfaces using HTML, CSS, and JavaScript
- Built reusable front-end components with a focus on usability and clean design
- Managed the development lifecycle from planning to delivery of a working prototype
- Implemented interactive features, form validation, and improved user experience

UServe - Service Booking Website (Ongoing)

- Developed using HTML, CSS, and JavaScript
- Implemented user authentication using Firebase
- Used Git and GitHub for version control and project management

CareerGrid - Social Networking Platform (Ongoing)

- Built a Django web app with user login, profiles, and posts using Django ORM
- Created dynamic frontend using HTML/CSS and Django templates
- Deployed the project on Railway and handled configuration issues

Certifications

Ethical Hacking Boot Camp

- Gained hands-on experience in ethical hacking and cybersecurity fundamentals through a bootcamp
- Practiced vulnerability detection and basic penetration testing
- Studied secure coding principles and common security vulnerabilities

Code Rally 6.0

- Competed in programming challenge
- Improved time management skills
- Strengthened teamwork and coordination

Experience (Nugen AI)

- Rebranded the frontend UI of a Django-based polling platform to align with Precog Nexus branding
- Updated logos, themes, and responsive UI components for light/dark mode support
- Integrated and tested Keycloak SSO authentication locally using Docker
- Collaborated with team members remotely to implement branding and authentication updates
